-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

1) Responsive to communication(s) filed on 25 March 2004.  
 2a) This action is FINAL.                    2b) This action is non-final.  
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

4) Claim(s) 1-16, 21 and 22 is/are pending in the application.  
 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.  
 5) Claim(s) 1-16 and 21 is/are allowed.  
 6) Claim(s) 22 is/are rejected.  
 7) Claim(s) \_\_\_\_\_ is/are objected to.  
 8) Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

9) The specification is objected to by the Examiner.  
 10) The drawing(s) filed on \_\_\_\_\_ is/are: a) accepted or b) objected to by the Examiner.  
     Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
     Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).  
 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
 a) All    b) Some \* c) None of:  
 1. Certified copies of the priority documents have been received.  
 2. Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.  
 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

#### Attachment(s)

1) <input type="checkbox"/> Notice of References Cited (PTO-892)	4) <input type="checkbox"/> Interview Summary (PTO-413)
2) <input type="checkbox"/> Notice of Draftsperson's Patent Drawing Review (PTO-948)	Paper No(s)/Mail Date. _____ .
3) <input type="checkbox"/> Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08) Paper No(s)/Mail Date _____ .	5) <input type="checkbox"/> Notice of Informal Patent Application (PTO-152)
	6) <input type="checkbox"/> Other: _____ .

Art Unit: 3722

## **DETAILED ACTION**

### **Faxing of Responses to Office Actions**

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing of responses to Office Actions directly into the Group at (703)872-9302 (Official) and (703)872-9303 (for After Finals). This practice may be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3722

1. Claims 22 is finally rejected under 35 U.S.C. 103(a) as being unpatentable over Main in view of Walz (5,501,393) and further in view of Coats et al (5,624,069).

Main discloses in Fig. 1 and 2, a mailing assembly comprising: a backing sheet (200) forming a transparent compartment to be adhered to a mailpiece (Col. 2, lines 52-59) having an opening (214, wherein a form is capable of being inserted); a mailing form (100, Col. 2, lines 60-67, and Col. 3, lines 1-3) comprised of a mailing label section (104, 114, 106, 108, 110) and an attached receipt (112); wherein the mailing form is removably attached to the backing sheet and further wherein the mailing form is variably printed with information (104-114); wherein the form is inserted into the compartment to effect delivery of the mailpiece (Col. 3, lines 11-20); and further wherein the mailing form (which includes the mailing label and receipt) is devoid of adhesive when removed.

However, Main does not disclose that the receipt is removably attached (however, still attached) to the mailing label, and further wherein the backing sheet contains an auxiliary label having adhesive.

Walz discloses in Fig. 1-5, a mailing form (12, and section 84) comprised of a non-adhesive receipt (84), wherein the receipt is removably attached to a backing sheet (14) and is further removably attached (through perforated lines, 20, 24, and 26) to the mailing label (12 of sections 80 and 82).

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Main's mailing form to include a detachably connected receipt

Art Unit: 3722

portion form the mailing label and backing sheet as taught by Walz for the purpose of providing a confirmation notice which can be mailed back to the sender.

However, Main and Walz do not disclose wherein the backing sheet has a third layer having an auxiliary third label.

Coats et al discloses in Fig. 1, a backing sheet (11) forming an envelope compartment wherein a third layer (Col. 5, lines 50-56) being an identification label is disposed on the surface of the backing sheet (11).

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Main and Walz's mailing assembly to include a third layer disposed on the backing layer as taught by Coats et al for the purpose of providing an identification mechanism for the mailing assembly.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to separately attach the receipt portion in place of a uniform receipt and back sheet portion with, since it has been held that constructing a formerly integral structure in various elements involves only routine skill in the art. Therefore, it would have been obvious

Art Unit: 3722

***Allowable Subject Matter***

2. Claims 1-16 and 21 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: No prior art of record discloses a mailing assembly comprising: a backing sheet which forms an envelope with a compartment that is adhered to a mailpiece; a mailing form that is removably attached to the backing sheet and is subdivided into a plurality of sub-parts, wherein each sub-part is variably printed with information; wherein at least one sub-part is inserted into the compartment; and wherein an adhesive layer is disposed on the backing sheet wherein the envelope formed from the backing sheet is formed via the adhesive layer on the backing sheet; and further wherein a third layer is disposed on the backing sheet having an auxiliary label with adhesive thereon; and including all of the other limitations of the independent claim.

***Response to Arguments***

4. Applicant's arguments filed on March 25, 2004 have been fully considered but they are not persuasive.

Art Unit: 3722

In regards to applicant's argument that the prior art does not disclose a mailing form having a label and a receipt card which has no adhesive backing wherein the receipt card is removably attached to the backing sheet and is detachably connected to the mailing label, the examiner submits that Main in view of Walz does indeed disclose this limitation as further stated in detail in the above rejection. However, applicant may consider amending the claim to disclose that the mailing label and form are two separately distinct substrates, which are both detachably connected to a receipt card. The claims are now interpreted as disclosing a mailing form that has a mailing label (meaning that the mailing label is a part or portion of the form).

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 3722

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

### Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark T. Henderson whose telephone number is (703)305-0189. The examiner can be reached on Monday - Friday from 7:30 AM to 3:45 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner supervisor, A. L. Wellington, can be reached on (703) 308-2159. The fax number for TC 3700 is (703)-872-9302. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the TC 3700 receptionist whose telephone number is (703)308-1148.
